

[Hanoi] Senior Java Fullstack Developer - LG CNS

English Job Description | Location: Keangnam, Yen Hoa Ward, Hanoi (former Cau Giay District)

Overview

LG CNS is seeking a Senior Java Fullstack Developer with strong technical expertise and a proactive mindset to join the application development team. The successful candidate will be responsible for end-to-end development of web and mobile systems, ensuring high quality, performance, scalability, and system stability.

Responsibilities

- Develop and maintain full-stack applications using Java / Spring Boot on the backend and HTML, CSS, JavaScript, TypeScript, and WebSquare on the frontend.
- Design and implement RESTful APIs and integrate with related internal or external systems.
- Participate in the full software development lifecycle: requirement analysis, design, development, testing, deployment, and maintenance.
- Write unit tests, support integration testing, analyze defects, and fix bugs.
- Optimize system performance and ensure code quality, maintainability, and scalability.
- Collaborate effectively with team members using Git, Jira, and Confluence.
- Work within CI/CD pipelines, containerized environments, and cloud deployment environments.

Required Qualifications

- Bachelor's degree in Information Technology, Software Engineering, Computer Science, or an equivalent field.
- At least 5 years of software development experience.
- Strong proficiency in Java and Spring / Spring Boot.
- Experience working with RDBMS such as MySQL or PostgreSQL and strong SQL skills.
- Experience in frontend development using HTML, CSS, JavaScript, and TypeScript.
- Solid understanding of web/mobile application development.
- Experience using Git and standard software development processes.
- Knowledge of and experience with CI/CD pipelines.

Preferred Qualifications

- Experience with WebSquare.
- Experience deploying applications on Kubernetes, AWS, or GCP.
- Strong understanding of backend architecture, system design, and performance optimization.

[Hanoi] Senior Java Fullstack Developer - LG CNS
