GitHub: github.com/david-robe
Location: San Francisco, USA
Fit score: 85/100

Career Goals

Senior fullstack engineer focused on scalable retail platforms, modern Java/Spring services, strong UX execution, and globally maintainable engineering standards.

Education

2010-2014 B.Sc. Computer Science, University of Washington.

Certificates

2024 AWS Solutions Architect Associate
2022 Oracle Java SE 17
2020 Scrum Master

Soft Skills

Cross-functional leadership
Architecture review
Mentoring and estimation
Problem ownership

Hobby

Cycling, open-source libraries, reading retail tech case studies.

Experience Summary

Senior Full Stack Developer with 10 years of experience building retail, inventory, order, and enterprise operation systems. Strong alignment with Java/Spring, frontend engineering, testing, scalable data handling, and retail process modernization. Experienced in English documentation and cross-time-zone delivery.

Selected Projects

1. Omnichannel Retail Inventory Platform

Company project | Senior Fullstack Engineer

Inventory platform synchronizing store stock, warehouse stock, online reservations, and replenishment signals.

- Designed Spring Boot microservices for stock movement, reservation, and adjustment flows.
- Built React/TypeScript operational screens with strong validation and table performance.
- Improved inventory search through SQL tuning, indexing, and asynchronous processing.

2. Store Operations Backoffice

Company project | Module Lead

Backoffice system for store tasks, cash-up confirmation, staff assignment, and incident logs.

- Led module design and implementation with Java/Spring and PostgreSQL.
- Created English functional design and API documents for distributed teams.
- Mentored 4 developers and reviewed backend/frontend pull requests.

3. POS Integration Adapter

Company project | Backend-focused Fullstack Developer

Adapter layer connecting POS transaction exports with inventory and finance systems.

- Built REST and batch interfaces for sales, returns, and stock corrections.
- Handled idempotency, retry, data validation, and audit logs.
- Added integration tests for transaction reconciliation cases.

David Robe

Senior Full Stack Developer

Profile Snapshot

10 years of fullstack development with strong retail, inventory, and POS-adjacent experience. Very strong JD fit, except limited Japanese-language collaboration.

Core Strengths

Retail systems
Java/Spring architecture
React/TypeScript UI
Cloud and testing

Selected Projects and Skills

4. E-commerce Promotion Engine

Company project | Senior Developer

Promotion engine supporting coupons, bundles, member discounts, and campaign traffic.

- Implemented rule evaluation APIs with Spring Boot and Redis caching.
- Developed admin UI for campaign setup and simulation.
- Improved response time during seasonal campaigns.

5. Customer Loyalty Console

Company project | Fullstack Developer

Console for member search, loyalty point adjustment, and support investigation.

- Built secure UI with role-based access and audit history.
- Integrated APIs for customer, points, order, and store data.
- Supported UAT and production monitoring.

6. Engineering Quality Toolkit

Company internal project | Technical Lead

Internal toolkit for code quality, API contract checks, and release readiness reports.

- Defined Java/Spring coding conventions and test templates.
- Automated API contract validation in CI/CD pipelines.
- Reduced escaped defects through standardized review checklists.

Skills

Backend Development

- Java, Spring Boot, Spring Security, JPA/Hibernate, REST APIs, OAuth2/JWT, Kafka, Redis.

Frontend Development

- HTML, CSS, JavaScript, TypeScript, React, Next.js, accessible enterprise UI.

Databases

- PostgreSQL, MySQL, Oracle, SQL tuning, indexing, transaction design.

DevOps and Collaboration

- Git, Jira, Confluence, Docker, Kubernetes, Jenkins, AWS, Linux.

Quality Engineering

- JUnit, Mockito, integration testing, API testing, performance profiling, SonarQube.

Languages

English native; French conversational; basic Japanese business greetings.
